

## LISTING OF THE CLAIMS

Please replace all prior versions and listings of claims in the application with the listing of claims as follows:

1. (Previously Presented) A processor-implemented method for issuing a unit to a holder, comprising:

creating by a processor a forward contract, the forward contract specifying a settlement amount and a settlement date;

creating a note securing obligations of said holder under said forward contract, said note specifying an initial capped remarketing, at least a first subsequent capped remarketing, and an uncapped remarketing, said uncapped remarketing performed only if each of said capped remarketing fails, each of said capped and uncapped remarketing scheduled to occur prior to said settlement date;

structuring the note as a combination of capped and uncapped remarketing, so it is treated as Tier 1 capital, for purposes of regulations applicable to financial institutions; and

issuing said forward contract and said note as the unit[[:]].

2. (Previously Presented) The method of claim 1, wherein said note further specifies, in addition to said initial capped remarketing, said at least a first subsequent capped remarketing, and said uncapped remarketing, an opportunistic remarketing period during which an issuer of said unit has discretion to perform at least one of a capped and an uncapped remarketing.

3. (Previously Presented) The method of claim 1, further comprising a second and a third subsequent capped remarketing prior to said uncapped remarketing.

4. (Original) The method of claim 1, wherein a remarketing is successful if

said note can be resold for an amount greater than said settlement amount.

5. (Original) The method of claim 1, wherein a remarketing is successful if said note can be resold for an amount greater than said settlement amount plus a remarketing fee.

6. (Original) The method of claim 1, wherein an issuer of said unit is a financial institution obligated to maintain Tier 1 and Tier 2 capital and wherein said unit is treated as Tier 1 capital.

7. (Previously Presented) A processor-implemented method for remarketing a mandatory unit:

an initial capped remarketing of a note portion of said mandatory unit by a processor, said initial remarketing initiated prior to a settlement date of a forward contract portion of said mandatory unit, said initial remarketing subject to a reset rate cap;

a subsequent capped remarketing if said initial remarketing is unsuccessful;

a final remarketing of said note portion of said mandatory unit, if both said initial capped remarketing and said subsequent capped remarketing are unsuccessful, said final remarketing initiated prior to said settlement date and not subject to a reset rate cap;

structuring the note as a combination of capped and uncapped remarketings, so it is treated as Tier 1 capital, for purposes of regulations applicable to financial institutions; and

issuing said forward contract portion.

8. (Previously Presented) The method of claim 7, further comprising:

performing an opportunistic remarketing prior to said final remarketing, said opportunistic remarketing performed at an option of an issuer of said mandatory unit.

9. (Original) The method of claim 8, wherein said opportunistic remarketing is at least one of a capped and an uncapped remarketing.

10. (Original) The method of claim 7, further comprising:

settling said forward contract portion of said mandatory unit with proceeds from a successful remarketing.

11. (Original) The method of claim 7, wherein a remarketing is successful if said note can be resold for an amount greater than a settlement price associated with said forward contract.

12. (Original) The method of claim 7, wherein a remarketing is successful if said note can be resold for an amount greater than a settlement price associated with said forward contract plus a remarketing fee.

13. (Original) The method of claim 7, wherein said initial remarketing is scheduled to occur prior to said settlement date.

14. (Original) The method of claim 13, wherein both said subsequent capped remarketing and said final remarketing are scheduled to occur prior to said settlement date and after said initial remarketing.

15. (Previously Presented) The method of claim 7, wherein if said subsequent capped remarketing is unsuccessful, a second and a third subsequent capped remarketing are attempted prior to said final remarketing.

16. (Previously Presented) The method of claim 7, further comprising:

determining that each of said remarketing is unsuccessful; and

upon determining that each of said remarketings is unsuccessful, settling said forward contract portion of said mandatory unit with a seizure of collateral of a holder of said forward contract.

17. (Previously Presented) A processor-implemented method for issuing a mandatory unit from an issuer to a holder, the method comprising:

creating by a processor a forward contract, the forward contract having a contract term extending from an issue date of said unit to a settlement date, said forward contract specifying a share delivery ratio for calculating a share delivery of issuer stock to said holder at said settlement date in exchange for a settlement amount;

creating a note securing obligations of said holder under said forward contract, said note specifying an initial capped remarketing, at least a first subsequent capped remarketing, an opportunistic remarketing period, and an uncapped remarketing, said uncapped remarketing performed only if each of said capped remarketings and any remarketings attempted during said opportunistic remarketing period fail; [[and]]

structuring the note as a combination of capped and uncapped remarketings, so it is treated as Tier 1 capital, for purposes of regulations applicable to financial institutions; and

issuing said forward contract and said note as a unit[[;]].

18. (Original) The method of claim 17, wherein said note is a contingent note.

19. (Previously Presented) A unit administration system, comprising:

a processor; and

a storage device in communication with said processor and storing instructions adapted to be executed by said processor to:

administer an initial capped remarketing of a note portion of said mandatory unit, said initial remarketing attempted prior to a settlement date of a forward contract portion of said mandatory unit, said initial remarketing subject to a reset rate cap;

administer a subsequent capped remarketing if said initial remarketing is unsuccessful; and

administer a final remarketing of said note portion of said mandatory unit, if both said initial capped remarketing and said subsequent capped remarketing are unsuccessful, said final remarketing initiated prior to said settlement date and not subject to a reset rate cap[[:]].

20. (Previously Presented) The unit administration system of claim 19, further comprising a communication device coupled to receive information from at least one of an issuer, a holder, a remarketing agent, and a market data source.

21. (Currently Amended) ~~A processor implemented method~~ An apparatus for remarketing a mandatory unit comprising:

a memory;

a processor disposed in communication with said memory, and configured to issue a plurality of processing instructions stored in the memory, wherein the processor issues instructions to:

(a) execute an initial capped remarketing of a note portion of said mandatory unit by a processor, said initial remarketing initiated prior to a settlement date of a forward contract portion of said mandatory unit, said initial remarketing subject to a reset rate cap;

(b) execute a subsequent capped remarketing if said initial remarketing is unsuccessful;

(c) execute a final remarketing of said note portion of said mandatory unit, if both said initial capped remarketing and said subsequent capped marketings are unsuccessful, said final remarketing initiated prior to said settlement date and not subject to a reset rate cap;

(d) structure structuring the note as a combination of capped and uncapped remarketing, so it is treated as Tier 1 capital, for purposes of regulations applicable to financial institutions; and

(e) issue issuing said forward contract portion[[:]].

22. (New) The method of claim 7, wherein the note is a convertible note.

23. (New) The method of claim 7, wherein the note is a form of debt instrument provided to secure the obligations under the forward contract.

24. (New) The method of claim 7, wherein the forward contract comprises terms specifying a settlement date, a settlement price, and a share delivery formula for calculating a share delivery of issuer stock to a holder at the settlement date.

25. (New) The method of claim 7, wherein the initial remarketing is capped at a market rate associated with an instrument having a comparable maturity as the note.

26. (New) The method of claim 7, wherein the remarketings may be scheduled to occur such that the proceeds may be used to purchase Treasury securities before settling the forward contract.

27. (New) The method of claim 7, wherein for each of the scheduled additional capped marketings, the rate may be reset as long as it is below a set cap.

28. (New) The method of claim 7, wherein the note comprises terms specifying a period in which one or more opportunistic remarketings, capped or uncapped, may be attempted.

29. (New) The method of claim 7, wherein if the initial capped remarketing is unsuccessful, the settlement of the forward contract is delayed.

30. (New) A system for remarketing a mandatory unit, comprising:

means for executing an initial capped remarketing of a note portion of said mandatory unit by a processor, said initial remarketing initiated prior to a settlement date of a forward contract portion of said mandatory unit, said initial remarketing subject to a reset rate cap;

means for executing a subsequent capped remarketing if said initial remarketing is unsuccessful;

means for executing a final remarketing of said note portion of said mandatory unit, if both said initial capped remarketing and said subsequent capped remarketing are unsuccessful, said final remarketing initiated prior to said settlement date and not subject to a reset rate cap;

means for structuring the note as a combination of capped and uncapped remarketings, so it is treated as Tier 1 capital, for purposes of regulations applicable to financial institutions; and

means for issuing said forward contract portion.

31. (New) A processor-readable medium storing a plurality of processing instructions, comprising issuable instructions by a processor to:

execute an initial capped remarketing of a note portion of said mandatory unit by a processor, said initial remarketing initiated prior to a settlement date of a forward contract portion of said mandatory unit, said initial remarketing subject to a reset rate cap;

execute a subsequent capped remarketing if said initial remarketing is unsuccessful;

execute a final remarketing of said note portion of said mandatory unit, if both said initial capped remarketing and said subsequent capped remarketing are unsuccessful, said final remarketing initiated prior to said settlement date and not subject to a reset rate cap;

structure the note as a combination of capped and uncapped remarketings, so it is treated as Tier 1 capital, for purposes of regulations applicable to financial institutions; and

issue said forward contract portion.
